A PERFECT ALLIANCE.

ODU-MAC® White-Line ZERO

The dynamic hybrid connector.

MANUAL MATING

ODU-MAC® SILVER-LINE    ODU-MAC® BLUE-LINE

www.odu-usa.com
ODU GROUP OVERVIEW
• More than 75 years of experience in connector technology
• A turnover of 170 million Euro
• Over 1,900 employees worldwide
• 9 sales subsidiaries in China, Denmark, France, Germany, Italy, Japan, Sweden, the UK and the US as well as 5 production and logistics sites
• All technologies under one roof: Design and development, machine tool and special machine construction, injection, stamping, turning, surface technology, assembly and cable assembly

As of February 2018

CUSTOMER-SPECIFIC SOLUTIONS
Contacts, connectors and integrated cable assembly solutions meeting the most demanding technical market requirements – ODU's connector solutions and value-added services are characterized by their exclusive focus on meeting the customer's needs.
• Precise implementation of application-specific requirements regarding design, functionality, cost and exclusivity
• Custom connector solutions derived from standard products
• One-to-one local expertise and fair, friendly consulting
• Quick prototyping and production turnaround

CERTIFIED QUALITY
• DIN EN ISO 9001
• IATF 16949
• DIN EN ISO 14001
• ISO 13485
• Wide range of UL, CSA, VG and DVA licenses
• UL certified cable assembly

For a complete list of our certifications, please visit our website.
CREATING CONNECTIONS, BUILDING ALLIANCES, COLLABORATING INTO THE FUTURE

For over 75 years, this commitment has enabled us to innovate and provide solutions that respond to continuously changing market needs. We provide high-quality electrical connectors that create added value for our customers and any market player seeking a reliable connector solution to enable the transmission of power, signals, media and data transmission.

A PERFECT ALLIANCE is our guiding principle. It represents the synergy between our high-quality connector solutions and the strong partnerships we build with our staff and business partners across the globe – partnerships based on trust, reliability and mutual respect.

ODU is one of the world’s leading suppliers of connector systems today, employing over 1,900 people worldwide and generating approximately €170 million in sales. To ensure the very highest quality standards in our cutting-edge products, we continuously invest in their development and production – and ultimately, in our very unique expertise. Over the past few years, our development of customer- and application-specific connectors has led to the sustained growth of our standard product range so that today, we cover a broad range of application areas. A balance between project-specific business, including customized developments, and standard connector design will continue to shape our business into the future. This holds true for emerging and future markets, such as medical, military and security, and energy, as well as for the special requirements of measurement and testing, eMobility and industrial electronics.

A PERFECT ALLIANCE – The future of ODU will continue to find solid ground for growth: in our focus on providing reliable connector solutions for a variety of challenging applications and in our commitment to continuously expanding our technology portfolio. It’s what we do and who we are – around the globe. This brochure is an invitation for you to become even better acquainted with ODU, an internationally active technology company devoted to creating high-quality customized connector solutions.

We are actively shaping the future of our company with creativity, imagination and innovation in order to serve our valued customers around the world.

ODU – A PERFECT ALLIANCE.

The Managing Directors:
Dr.-Ing. Kurt Woelfl and Denis Giba
THE ODU-MAC® ZERO – SMALL SIZE, LARGE VARIETY

When it comes to performance, the ODU-MAC ZERO is nearly on par with its “big brother”. Need a space-saving hybrid connector which can combine several different media? The ZERO from the ODU-MAC product series is your ideal choice. Its symmetric housing geometry enables a generous range – up to 9 units – of signals, power, data-rate and coax modules. In place of an aluminum frame, the plastic housing parts have integrated rails, making the use of magnetic components no longer necessary.

This light, compact multitasker is the result of significant developmental work, with its stylish design making it an innovative eye-catcher.

IMPRESSIONS – THE ODU-MAC® ZERO

- Suitable for a wide range of ODU-MAC modules
- Can be fitted with 9 units
- Up to 60,000 mating cycles
- 3 different cable outlets: straight, 45°, 90°
- Compact, dynamic housing design
- All touchable parts nickel-free
- Simple, safe housing locking (Break-Away function/emergency release)
- Especially easy to clean
- IP 54
THE MODULAR MULTITASKER

This is how a solid, effective, and attractive overall connection is created – one whose functionality simply can’t be surpassed. Confusion due to an excessive number of connections? This challenge belongs to the past – because the customized ODU-MAC ZERO is today’s solution.

PRODUCT FEATURES OVERVIEW

- Housing made of 2 plastic half-shells which also form the frame
- Easy cleaning thanks to fewer dirt-collecting edges and additional screw cover
- Ergonomic housing design with lateral grip recess
- Integrated guiding pins/bushes
- Low mating/demating forces with approx. 7 N without contacts
- All touchable parts nickel-free
- Bio-compatibility upon request
- Coding: by guiding pins (Ø 4 mm, length 16 mm), housing geometry, coding modules and color-coded cable bend relief varieties
- Black or gray housing upon request
MODULARITY AND ERGONOMIC DESIGN FOR THE SMALLEST OF SPACES

CONNECTOR HOUSING FOR ASSEMBLY CABLE EXIT 90°

CONNECTOR HOUSING FOR ASSEMBLY CABLE EXIT 0°

CONNECTOR HOUSING FOR ASSEMBLY CABLE EXIT 45°

FULLY COMPATIBLE

RECEPTACLE
For integration in the device.

Cable-to-cable hood available upon request.
Connector housing for mounting on the cable with different cable entries.
ODU-MAC rail for installing the insulator is already integrated in the housing.

**SNAP-IN LOCKING (BREAK-AWAY FUNCTION)**

**TECHNICAL DATA**

- **Color of housing**: White
  - black/gray on request
- **Locking cycles**: 60,000
- **Material**: PC Lexan (PEI on request)
- **Protection class**: IP 54
- **Operating temperature**: −40 °C to +125 °C
- **CableØ**: 8 to 14.5 mm

The cable bend relief must be ordered separately.

¹ The frame is already permanently integrated and consists of nine units. ² IEC 60529:2013 [VDE 0470-1:2014]
**RECEPTACLE**

For integration into the device.

**SNAP-IN LOCKING (BREAK-AWAY FUNCTION)**

**CODING AND PACKAGING DIMENSIONS**
Slender, light design with easy, safe handling:

- Maximum mating security through mechanical coding (D-shape)
- Compact, space-saving design with two mounting options

**SNAP-IN LOCKING**
Easy mating, automatic locking, quick demating option when necessary:

- Quick, reliable housing locking thanks to snap fits and sealing strip (frictional locking principle)
- Low mating/demating forces (approx. 7 N for the housing) guarantee quick connection demating (Break-Away function/emergency release)

**AFFIXING MODULES TO DEVICE PARTS**
All module varieties can be quickly, easily and securely integrated:

- Insert module and press the 2 half-shells together
- Affix the device part with screws

---

**MOUNTING FROM BELOW**

Mounting with standoffs (not included) is preferable.

**MOUNTING FROM ABOVE**

Cable-to-cable hood available upon request.
SILICONE BEND RELIEFS

- For cable diameters of 8–14.5 mm (MINI-SNAP size 4)
- Ideal for color coding
- White, gray and black are standard stock – other colors available upon request

1. Due to variations in raw materials, colors may differ slightly from RAL numbers. 2. Standard colors with short delivery period.
OVERVIEW OF ALL MODULES

SIGNAL

- 14 contacts / Contact Ø: 1.02 mm
  - Operating voltage: 320 V
  - Rated impulse voltage: 2,500 V
  - Max. continuous current: 13.5 A at 0.5 mm²
  - Mating cycles: min. 100,000

- 10 contacts / Contact Ø: 0.76 mm
  - Operating voltage: 250 V
  - Rated impulse voltage: 1,500 V
  - Max. continuous current: 11 A at 0.38 mm²
  - Mating cycles: min. 100,000

- 10 contacts / Contact Ø: 0.7 mm
  - Operating voltage: 32 V
  - Rated impulse voltage: 1,500 V
  - Max. continuous current: 6 A at 0.38 mm²
  - Mating cycles: min. 5,000

POWER

- 6 contacts / Contact Ø: 1.02 mm
  - Operating voltage: 400 V
  - Rated impulse voltage: 3,000 V
  - Max. continuous current: 13.5 A at 0.5 mm²
  - Mating cycles: min. 100,000

- 5 contacts / Contact Ø: 1.5 mm
  - Operating voltage: 500 V
  - Rated impulse voltage: 2,500 V
  - Max. continuous current: 27 A at 1.5 mm²
  - Mating cycles: min. 100,000

COAX

- 4 contacts / 50 Ω
  - Frequency range: 0 to 1.3 GHz
  - Mating cycles: min. 60,000

- 2 contacts / 50 Ω
  - Frequency range: 0 to 9.0 GHz
  - Mating cycles: min. 100,000

- 2 contacts / 50 Ω
  - Frequency range: 0 to 2.4 GHz
  - Mating cycles: min. 100,000

COAX

2 contacts / 50 Ω
- Frequency range: 0 to 2.8 GHz
- Mating cycles: min. 100,000

2 contacts / 75 Ω
- Frequency range: 0 to 3.0 GHz
- Mating cycles: min. 100,000

HIGH-SPEED CONNECTOR / Shielded implementation / suitable for all common bus systems

2 to 10 contacts / size 0
- Mating cycles: min. 10,000
Selected inserts are suitable and certified for data rates of up to 5 Gbit/s [USB® 3.1 Gen1].

2 to 14 contacts / size 1
- Mating cycles: min. 10,000
with springwire: min. 60,000
Selected inserts are suitable and certified for data rates of up to 1 Gbit/s.

ADDITIONAL MODULES

Blank modules
Spacer modules
Coding modules
Pin protection modules

SPECIAL MODULES

Lens connector for POF
- Lens with HFBR ferrule
- Cable type: POF 980/1,000
- Insertion loss < 4 dB with polished fiber

8-channel module (coax option)
- Up to 510 MHz
- 100,000 mating cycles
- Easy to assemble

2 These ODU specific connectors can transmit common data transmission protocols such as USB® 2.0, USB® 3.1 Gen1, FireWire® and Ethernet, but they are not USB® 2.0, USB® 3.1 Gen1, FireWire® and Ethernet-standard connectors.
